

DIARY NOTES

DD/S

14 August 1972

Proposed Revised Badge Check Procedures: Mr. Osborn advised that following a discussion on a different subject the Director mentioned the recent "penetration" of DIA Headquarters as a part of a security review. The Director stated that he did not wish attempts such as that initiated at CIA but also wanted assurance that our procedures are adequate and also are enforced. Mr. Colby suggested that a change be made to tighten up badge checks at entrances. He proposed that each of the guards make a badge check of each employee passing through an entrance rather than having the guards look at separate lines of entering employees. It was agreed that the delay imposed on employees would be acceptable if an improvement in control resulted. It was agreed that Mr. Osborn would set up a test of this revised procedure at the main entrance.
